### DETAILED ACTION

1. This office action is in response to Applicant's Request for Continued Examination filed on 11/29/2004. Claims 1, 8 and 15 have been amended. Claims 22-25 have been added. Claims 1-25 are pending.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims, 1, 8, 15 and 22 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Page 87, 3<sup>rd</sup> paragraph of the Specification discloses "free of fractions in the encrypting process".

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Regarding claims 1, 8, 15 and 22, the phrase "substantially free" renders the claim(s) indefinite because the term "substantially" is a relative term, thereby rendering

Art Unit: 2134

the scope of the claim(s) unascertainable. See MPEP § 2173.05(d). The claims would have been allowable if the term "substantially" is removed from the claims.
